

DAOUD IBRAHIM

Senior Data Analyst & Full-Stack Engineering Lead

dyerdaoudibrahim@gmail.com | +918233141399 | Python • Data Analytics • Cloud • Team Lead
| 7+ Years Experience

PROFESSIONAL SUMMARY

Results-driven Senior Data Analyst and Full-Stack Engineering Lead with 7+ years of experience architecting scalable backend systems, analytical pipelines, and cloud infrastructure. Proven track record of leading cross-functional engineering teams of 8–10 members at MotorDNA, ReserveTiger Safari, and PansionAnalytics — delivering data-driven products from conception to production. Expert in Python, Django, FastAPI, REST APIs, AWS, Docker, and Power BI. Adept at turning complex data into actionable business intelligence while owning end-to-end delivery across backend, frontend, databases, and DevOps.

CORE COMPETENCIES

BACKEND DEVELOPMENT

Python, Django, FastAPI, Flask, REST APIs, Microservices, Socket, Shell Scripting

FRONTEND & VISUALIZATION

Power BI, Matplotlib, HTML/CSS, Dashboard Design, Data Storytelling

DATABASE MANAGEMENT

SQL, MySQL, PostgreSQL, Query Optimization, Data Modeling, ETL Pipelines

CLOUD & DEVOPS

AWS (S3, SES, EC2), Docker, Ansible, GitLab CI/CD, Apache Server, SSH

DATA & AI / ML

Pandas, PyTorch, OpenCV, OCR (PaddleOCR, PIL), Ollama, Predictive Modeling

AUTOMATION & SCRAPING

Selenium, BeautifulSoup, Web Scraping, Email Automation, OTP Systems

SECURITY & INTEGRATIONS

Payment Gateways, Google Authenticator, JWT, API Security, OAuth

ENGINEERING LEADERSHIP

Team Lead (8–10), Agile/Scrum, Code Review, Mentoring, Sprint Planning

PROFESSIONAL EXPERIENCE

Team Lead / Senior Data Analyst | MotorDNA

January 2020 – Present (5+ Years) • Remote / India

Key Responsibilities & Achievements:

- Led** Led and managed a cross-functional team of 8–10 engineers across backend, data, and cloud functions — achieving a >95% sprint delivery rate across all major product milestones.
- Architected** Architected and deployed end-to-end data automation frameworks integrating Python, REST APIs, and machine learning models — reducing manual data processing time by 65%.
- Built** Built and maintained RESTful APIs and microservices using FastAPI and Django, powering real-time data delivery to internal dashboards and client-facing products.
- Designed** Designed and deployed 10+ analytical dashboards in Power BI, providing C-suite stakeholders with real-time KPIs and performance metrics that informed key business decisions.
- Scaled** Scaled AWS infrastructure (S3, SES, EC2) to support a 10x growth in data volume, implementing automated pipelines for real-time reporting and email notifications.

- **Delivered** Delivered secure authentication systems including OTP verification, payment gateway integrations, and Google Authenticator — achieving zero critical security incidents.
- **Supervised** Supervised team members in data collection, cleaning, and transformation using Python and Pandas — improving data quality scores by 40% through standardized review processes.
- **Integrated** Integrated Ollama-powered LLM tools into internal analytics workflows, accelerating exploratory data analysis turnaround by 30%.
- **Mentored** Mentored 5+ junior analysts and engineers through structured code reviews, technical workshops, and 1:1 sessions — improving overall team code quality metrics by 35%.
- **Drove** Drove adoption of Agile/Scrum practices including sprint planning, retrospectives, and backlog grooming — improving team velocity by 25% over two consecutive quarters.

Data Analyst | [ReserveTiger Safari](#)

February 2017 – December 2019 (3 Years) • India

Key Responsibilities & Achievements:

- **Built** Built end-to-end data pipelines and analytical dashboards that monitored booking trends and customer engagement, supporting a 20% improvement in campaign targeting accuracy.
- **Automated** Automated weekly and monthly report generation using Power BI, SQL, and Python — reducing manual reporting effort by 70% and saving 15+ hours per week.
- **Deployed** Deployed Power BI dashboards integrated with AWS data sources, providing real-time booking insights to operations and marketing teams across 3 departments.
- **Engineered** Engineered web data extraction workflows using Selenium and BeautifulSoup, capturing competitor pricing and market data for strategic analysis.
- **Developed** Developed predictive models using Pandas and Matplotlib to forecast seasonal booking demand, enabling inventory optimization and a 12% reduction in overbooking incidents.
- **Delivered** Delivered data quality improvements through automated validation scripts, reducing erroneous records in the booking database by 45%.
- **Collaborated** Collaborated cross-functionally with product, marketing, and operations teams to translate business requirements into scalable analytical solutions.

Junior Data Analyst | [PansionAnalytics](#)

January 2015 – January 2017 (2 Years) • India

Key Responsibilities & Achievements:

- **Designed** Designed and implemented predictive analytics models for financial forecasting using Pandas and Matplotlib — improving forecast accuracy by 18% over legacy models.
- **Built** Built REST and Flask APIs for data access and visualization, enabling self-service analytics for internal stakeholders.
- **Led** Led OCR automation initiatives using OpenCV and PaddleOCR for document digitization, processing 10,000+ documents and eliminating manual data entry for 3 business units.
- **Managed** Managed Dockerized deployment pipelines and version control workflows via GitLab, reducing deployment errors by 50% and improving release consistency.
- **Delivered** Delivered financial dashboards and automated reports that reduced month-end closing reporting time from 3 days to 4 hours.
- **Collaborated** Collaborated with cross-functional stakeholders to gather requirements and translate them into technical data solutions, supporting 4 concurrent analytics projects.

KEY PROJECTS & IMPACT

MotorDNA — Data Automation & Intelligence Platform

- **Spearheaded** Spearheaded the design and delivery of a full-scale data automation framework integrating machine learning models, REST APIs, and real-time Power BI dashboards for vehicle analytics.
- **Integrated** Integrated 5+ third-party APIs and payment systems into the platform, enabling seamless transaction processing and user verification workflows.
- **Scaled** Scaled backend services on AWS to handle a 10x increase in traffic, maintaining 99.9% uptime across all production systems.
- **Reduced** Reduced data pipeline latency by 55% by re-architecting ETL workflows with async Python and optimized SQL queries.

ReserveTiger Safari — Tourism Analytics Dashboard Suite

- **Delivered** Delivered a comprehensive analytics suite covering booking trends, customer segmentation, and revenue forecasting — adopted by all 3 operational departments.
- **Built** Built automated data ingestion pipelines pulling from web sources using Selenium and BeautifulSoup, refreshing data hourly without manual intervention.
- **Deployed** Deployed Power BI dashboards connected to live AWS data stores, giving management real-time visibility into KPIs for the first time in company history.

PansionAnalytics — Financial Forecasting & OCR Automation

- **Architected** Architected an OCR document processing system using OpenCV and PaddleOCR that digitized 10,000+ financial documents, cutting manual data entry by 80%.
- **Built** Built and deployed predictive financial models that improved quarterly forecast accuracy by 18%, directly supporting executive decision-making.
- **Implemented** Implemented Docker-based CI/CD pipelines managed via GitLab, reducing release cycle time from 2 weeks to 3 days.

TECHNICAL SKILLS — DETAILED BREAKDOWN

Languages	Python (Advanced), SQL (Advanced), Shell/Bash Scripting, JavaScript (Basic)
Frameworks	Django, FastAPI, Flask, REST API, Selenium, BeautifulSoup
Data & Analytics	Pandas, Matplotlib, NumPy, Power BI, Jupyter Notebooks, ETL Design
AI / ML / Vision	PyTorch, OpenCV, PaddleOCR, PIL, OCR Automation, Ollama (LLMs)
Databases	MySQL, PostgreSQL, SQLite, Redis, Query Optimization, Indexing
Cloud Platforms	AWS (S3, SES, EC2, Lambda), Apache Server
DevOps & Tools	Docker, Ansible, GitLab CI/CD, Git, SSH, Linux/Ubuntu, Postman
Security & Auth	OTP Systems, Google Authenticator, Payment Gateways, JWT, OAuth 2.0
Methodologies	Agile/Scrum, Code Review, TDD, Sprint Planning, Technical Mentoring

EDUCATION

Master of Computer Applications (MCA)

CIITM — Affiliated with Rajasthan Technical University (RTU)

Postgraduate Degree

Bachelor of Computer Applications (BCA)

Kuchaman PG College — Affiliated with MDSU

Undergraduate Degree

LEADERSHIP & SOFT SKILLS

TEAM LEADERSHIP

Led teams of 8–10 engineers; sprint planning, retrospectives, performance reviews

COMMUNICATION

Stakeholder reporting, C-suite presentations, cross-team coordination

MENTORING

1:1 coaching, technical onboarding, structured code review programs

PROBLEM SOLVING

Root cause analysis, system debugging, architectural decision-making

PROJECT MANAGEMENT

Agile/Scrum, backlog management, risk assessment, milestone delivery

ADAPTABILITY

Multi-domain experience: analytics, backend, cloud, AI, security

CAREER HIGHLIGHTS & IMPACT SUMMARY

65%

Reduction in manual data processing time at MotorDNA via automation

10,000+

Documents digitized through OCR automation at PansionAnalytics

70%

Reduction in manual reporting effort at ReserveTiger via Python + Power BI

8–10

Engineers led across backend, data, cloud & frontend teams

7+

Years of Python development across 3 companies

99.9%

AWS production uptime maintained at MotorDNA at peak scale
